Why have you decided to have your child evaluated by a Chiropractor?

He/She is continuing ongoing care from another chiropractor.

I recently had my spine checked and understand the value in getting my child checked.

I have concerns about his/her health and I'm looking for answers.

He/She has a specific condition and I've learned that chiropractic may be able to help. I want to improve my child's immune function.

Wellness Profile

The human body is designed to be healthy. The primary system in the body which coordinates health and function is the nervous system. Your nervous system is surrounded and protected by the bones of the spine, called **vertebrae**. Many of the common health challenges that adults experience have their origins during the **developmental years**, some starting at birth. Layers of damage to the spine and **nervous system** occur as a result of various **traumas**, **toxins and emotional stress**. The result may be misalignment to the spinal column and damage to the nervous system in a condition called **Vertebral Subluxation**. Please answer the following questions to give us a better understanding about your child's state of wellness and factors which may be contributing to vertebral subluxation and impeding your child's **ability to heal**.

What signals has your child's body been communicating?

CURRENT	CURRENT		CURRENT		
S	D R		D R		
	Asthma Respiratory Tract Infections	Frequent Diarrhea Constipation		Failure to Thrive / Slow Weight Gain Slow or Absent Reflexes	
	Sinus Problems	Flatulence		Asymmetrical Crawling or Gait	
	Ear Infections	Headaches/Migraines		Weight Challenges	
	Tonsillitis	Neck Pain		Bed Wetting	
	Strep Throat	Torticollis / Head Tilt		Sleep Problems	
	Frequent Colds / Croup	Trouble Feeding on One Side		Night Terrors	
	Recurrent Fevers	Back Pain		Tip Toe Walking	
	Eczema	Growing Pains		Regression of Milestones	
	Rashes	Scoliosis		Seizures	
	Allergies	Red, Swollen, Painful Joint		Tremors / Shaking	
	Food Sensitivites	Colic		ADD / ADHD	
	Digestive Problems	Frequent Crying Spells		Autism / PDD	
If yes, Does y Is it ge Have y	o, I'm interested in having my child's nees: please answer the following questions: your child appear to be in pain or disconting better, worse or staying the same you seen other health professionals regallow if Yes, whom?	mfort?How long has y	your cl	hild been experiencing this? on or gradual?	
	at treatment did they use?				
	our child taken any medication for this c		es		
	our child ever experienced this complain	nt before? No Y	es		
Did they receive any treatment at the time? No Yes					
Has yo	our child had x-rays in relation to the cu	rrent complaint? No Y	es	-

Goals & Consent
Do you feel your child is developmentally appropriate for their age: Intellectually: Yes No Emotionally: Yes No Physically: Yes No
What is your primary goal for your child at our clinic?
Our goals are to provide a detailed assessment of your child's current health status and provide to you the resources for a highly engaged and healthy child whose body is functioning at its absolute peak potential while they grow. Essential to this healthy growth is a nervous system functioning free from interference called subluxations. You've taken an important step for your child's future through a chiropractic evaluation!
