### Why have you decided to have your child evaluated by a Chiropractor?

He/She is continuing ongoing care from another chiropractor.

I recently had my spine checked and understand the value in getting my child checked.

I have concerns about his/her health and I'm looking for answers.

He/She has a specific condition and I've learned that chiropractic may be able to help. I want to improve my child's immune function.

# **Wellness Profile**

The human body is designed to be healthy. The primary system in the body which coordinates health and function is the nervous system. Your nervous system is surrounded and protected by the bones of the spine, called **vertebrae**. Many of the common health challenges that adults experience have their origins during the **developmental years**, some starting at birth. Layers of damage to the spine and **nervous system** occur as a result of various **traumas**, **toxins and emotional stress**. The result may be misalignment to the spinal column and damage to the nervous system in a condition called **Vertebral Subluxation**. Please answer the following questions to give us a better understanding about your child's state of wellness and factors which may be contributing to vertebral subluxation and impeding your child's **ability to heal**.

#### What signals has your child's body been communicating?

Asthma Frequent Diarrhea Failure to Thrive / Slow Weight Gain Respiratory Tract Infections Constipation Slow or Absent Reflexes Sinus Problems Flatulence Asymmetrical Crawling or Gait Weight Challenges Headaches/Higraines Weight Challenges Death of Torticollis / Head Tilt Sleep Problems Frequent Colds / Croup Troticollis / Head Tilt Sleep Problems Frequent Colds / Croup Trouble Feeding on One Side Recurrent Fevers Back Pain Tip Toe Walking Recreama Growing Pains Regression of Milestones Seizures Allergies Red, Swollen, Painful Joint Tremor / Shaking And Autism / PDD Digestive Problems Frequent Crying Spells Autism / PDD  Do you have a specific concern that brings you in? No, I'm interested in having my child's nervous system assessed to achieve optimal health and functioning. Goals & Consent
Do you feel your child is developmentally appropriate for their age:
Intellectually: Yes No
Emotionally: res ino
Physically: Yes No
What is your primary goal for your child at our clinic?
Tribut to your printerly gour for your crime at our crime.
Our goals are to provide a detailed assessment of your child's current health status and provide to you the resources for a
highly engaged and healthy child whose body is functioning at its absolute peak potential while they grow. Essential to this
healthy growth is a nervous system functioning free from interference called subluxations. You've taken an important step
for your child's future through a chiropractic evaluation!
Consent to Evaluation of a Minor Child
being the parent or legal guardian of,
